

DIGITALISATION & INDUSTRY 4.0

Challenges and Opportunities for SME

To gain a competitive advantage and foster innovation capabilities of Austrian and Slovenian SME in the global market, different NETWORKING OPPORTUNITIES are planned in the project INTERREG Smart Production.

EVOLARIS, an innovator in the field of Smart Production and Services, and the UAS CAMPUS 02 invite to an afternoon with interesting keynote sessions about trends, barriers and opportunities of digitalisation in Industry. Furthermore, we offer a hands-on session with various Digital Assistance Systems, Augmented Reality Applications and Smart Glasses.

We're looking forward to welcoming you at this event!
